Description

Introducing Tripp Lite's internal SCSI Ultra320 3-drive LVD/SE cable with an active mode-conditioning T-type crimped on terminator. LVD/SE multi-mode termination enables backward compatibility to legacy single ended devices. The terminator will sense if the bus is running LVD or SE and terminate appropriately. This cable measures 31.5 inches in length from master to drive #3 and is UL rated with premium brand cabling. Meets the latest SCSI specification of ANSI (American National Standards Institute). For 5-Drive Connection, see S065-42I, or, for Round Version cables, see S073-31I and S075-42I.

Features
