

# HEXFRED® Ultrafast Soft Recovery Diode, 180 A

**HALF-PAK (D-67)**

## FEATURES

- Very low  $Q_{rr}$  and  $t_{rr}$
- Designed and qualified for industrial level
- UL approved file E222165 
- Material categorization: for definitions of compliance please see [www.vishay.com/doc?99912](http://www.vishay.com/doc?99912)

**RoHS**  
COMPLIANT

## BENEFITS

- Reduced RFI and EMI
- Reduced snubbing

## DESCRIPTION

HEXFRED® diodes are optimized to reduce losses and EMI/RFI in high frequency power conditioning systems. An extensive characterization of the recovery behavior for different values of current, temperature and  $di_F/dt$  simplifies the calculations of losses in the operating conditions. The softness of the recovery eliminates the need for a snubber in most applications. These devices are ideally suited for power converters, motors drives and other applications where switching losses are significant portion of the total losses.

## PRIMARY CHARACTERISTICS

|                       |                 |
|-----------------------|-----------------|
| $I_{F(AV)}$           | 180 A           |
| $V_R$                 | 400 V           |
| $I_{F(DC)}$ at $T_C$  | 200 A at 100 °C |
| Package               | HALF-PAK (D-67) |
| Circuit configuration | Single diode    |

## ABSOLUTE MAXIMUM RATINGS

| PARAMETER                                        | SYMBOL         | TEST CONDITIONS                                                    | MAX.        | UNITS |
|--------------------------------------------------|----------------|--------------------------------------------------------------------|-------------|-------|
| Cathode to anode voltage                         | $V_R$          |                                                                    | 400         | V     |
| Continuous forward current                       | $I_F$          | $T_C = 25\text{ °C}$                                               | 395         | A     |
|                                                  |                | $T_C = 100\text{ °C}$                                              | 200         |       |
| Single pulse forward current                     | $I_{FSM}$      | Limited by junction temperature                                    | 1200        |       |
| Non-repetitive avalanche energy                  | $E_{AS}$       | $L = 100\text{ }\mu\text{H}$ , duty cycle limited by maximum $T_J$ | 1.4         | mJ    |
| Maximum power dissipation                        | $P_D$          | $T_C = 25\text{ °C}$                                               | 657         | W     |
|                                                  |                | $T_C = 100\text{ °C}$                                              | 263         |       |
| Operating junction and storage temperature range | $T_J, T_{Stg}$ |                                                                    | -55 to +150 | °C    |

## ELECTRICAL SPECIFICATIONS ( $T_J = 25\text{ °C}$ unless otherwise specified)

| PARAMETER                          | SYMBOL   | TEST CONDITIONS                             | MIN. | TYP. | MAX. | UNITS |
|------------------------------------|----------|---------------------------------------------|------|------|------|-------|
| Cathode to anode breakdown voltage | $V_{BR}$ | $I_R = 100\text{ }\mu\text{A}$              | 400  | -    | -    | V     |
| Maximum forward voltage            | $V_{FM}$ | $I_F = 180\text{ A}$                        | -    | 1.08 | 1.46 |       |
|                                    |          | $I_F = 360\text{ A}$                        | -    | 1.22 | 1.8  |       |
|                                    |          | $I_F = 180\text{ A}, T_J = 125\text{ °C}$   | -    | 0.99 | 1.34 |       |
| Maximum reverse leakage current    | $I_{RM}$ | $T_J = 125\text{ °C}, V_R = 400\text{ V}$   | -    | -    | 4    | mA    |
| Junction capacitance               | $C_T$    | $V_R = 200\text{ V}$                        | -    | 370  | 500  | pF    |
| Series inductance                  | $L_S$    | From top of terminal hole to mounting plane | -    | 6.0  | -    | nH    |

**DYNAMIC RECOVERY CHARACTERISTICS** ( $T_J = 25\text{ }^{\circ}\text{C}$  unless otherwise specified)

## Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
