

2-to-1 RJ45 Network Signal Splitter (M/2xF) - 10/100 Mbps Ethernet, Cat5/Cat5e, 6 in. (15 cm)

MODEL NUMBER: N035-001

Connects two 10/100 Ethernet devices, such as servers or computers, to two ports of a network switch over one Cat5/Cat5e cable drop.

Features

Transmits 2 Ethernet Signals Through a Single Network Cable

This RJ45 splitter/adaptor (M/2xF) lets you transmit two 10/100 Mbps Ethernet signals through one Cat5/Cat5e network cable, saving you the time, effort and cost of adding a second cable drop. **Note:** Two N035-001 adaptors are required: one connected to two network devices, such as servers or computers, and one connected to two ports of a network switch.

Simple Plug-and-Play Installation

One Cat5/Cat5e cable connects both N035-001 adaptors through a four-pair UTP wall plate or patch panel. The RJ45 jacks transmit on 1, 2, 3 and 6. Built-in flanges allow mounting on a wall or other flat surface. **Note:** The N035-001 cannot be used to share two computers on one network line.

Specifications

OVERVIEW	
UPC Code	037332200969
Technology	Cat5/5e
CONNECTIONS	
Number of Ports	2
Side A - Connector 1	(2) RJ45 (FEMALE)
Side B - Connector 1	RJ45 (MALE)
PHYSICAL	
Color	Silver

Highlights

- Connects 2 ports of an Ethernet network switch to 2 separate devices
- Supports 10/100Base-T network transmissions via Cat5/Cat5e cabling
- Saves you the expense and effort of installing a second cable drop
- Mounts on a wall or other level surface using the built-in flanges
- 2 N035-001 adapters are required for a proper installation

System Requirements

Requires 2 N035-001 adapters for a proper installation

Package Includes

- N035-001 2-to-1 RJ45 Network Signal Splitter (M/2xF)
- Owner's manual
